

New Feature Update | Unification of Telematics

You can now send commands to the vehicles connected via Invers and Geotab in Mission Control!

Before:

Lock	→
Unlock	→

Now:

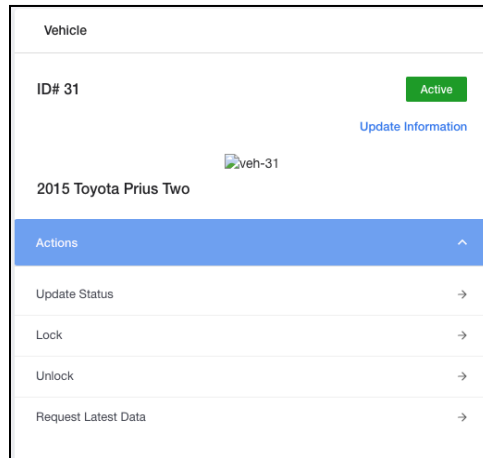

And we changed it to [Lock, Unlock Doors and Disable Engine](#) and [Unlock Doors and Enable Engine](#)

Lock
Unlock Doors and Disable Engine
Unlock Doors and Enable Engine

Enhanced User Experience in Vehicle Details

Before:

Admin had to toggle to access the action buttons.

Now:

Admin can go to Vehicle Details and click on the three dots to access the same action buttons.
